

BRSR Readiness Self-Assessment

Diagnostic across the BRSR disclosure architecture: data backbone, boundaries, principle-wise KPI coverage, leadership indicators and assurance readiness.

A. Scope & Governance (5)

#	Check	Gap / Notes
1	Listing status and BRSR applicability confirmed (mandatory vs voluntary filing)	
2	Reporting boundary decided: standalone vs consolidated (subsidiaries in/out defined)	
3	Board / CSR committee oversight of sustainability disclosure documented	
4	Named disclosure owner + data owners per principle	
5	Filing calendar with internal deadlines mapped (ahead of SEBI date)	

B. Data Backbone (8)

#	Check	Gap / Notes
6	Energy consumption reconciles with energy audit / statutory filings	
7	Water withdrawal matches CGWA NOC / SPCB records where applicable	
8	GHG Scope 1 & 2 computed on a documented method (factors cited)	
9	Waste categories tracked per rule (hazardous/e-waste/plastic/biomedical) with manifests	
10	Employee / worker data system covers the social KPIs (gender, turnover, training hours, PWD)	
11	Complaint/grievance register feeds the governance KPIs	
12	Value-chain data (suppliers, PP coverage) collected on a defined method	
13	Restatement policy: YoY method changes disclosed and prior year restated	

C. Principle-Wise Coverage (9)

#	Check	Gap / Notes
14	P1 Ethics: code of conduct, awareness coverage % tracked	
15	P2 Sustainable & safe products: product recalls, R&D spend on sustainability	

	16	P3 Wellbeing: safety (LTIFR), parental leave, accessibility KPIs
	17	P4 Stakeholder engagement: mapped, consulted, feedback loop closed
	18	P5 Human rights: policy, due diligence, child/forced labour KPIs
	19	P6 Environment: all quantified sections (energy/water/GHG/waste/biodiversity)
	20	P7 Public policy: advocacy positions, PIC compliance
	21	P8 Inclusive growth: CSR spend, community project outcomes
	22	P9 Consumer: complaints, data privacy, advertising KPIs

D. Leadership Indicators (5)

#	Check	Gap / Notes
23	Leadership indicator strategy decided (which to pursue, which to skip honestly)	
24	Life-cycle assessment(s) planned or completed for key products	
25	Supply-chain ESG engagement programme running	
26	Third-party assurance scoped (limited vs reasonable)	
27	SDG mapping / alignment documented	

E. Assurance Readiness (5)

#	Check	Gap / Notes
28	Basis of preparation documented for every quantitative indicator	
29	Evidence pack per KPI (source docs traceable)	
30	Cross-document consistency: BRSR vs annual report vs website claims	
31	Assurance provider engaged; scope and timeline agreed	
32	Internal mock-review against the assurance checklist completed
